Lead Dust Wipe Report

For: 297 Somerset St, New Brunswick, NJ, 08901
March 11, 2024

On 02/27/2024, LEW Environmental Services, LLC (NJDC 00015 E) performed dust wipe sampling for the presence of lead at 297 Somerset St, New Brunswick, NJ, 08901, (the "property") in compliance with NJAC 5:28A. Ten (10) dust wipe (s) were taken for dust level determination. We conducted our inspection in accordance with all federal, state, and municipal regulations. The regulations and inspection standards require that we plan and perform the inspection to obtain a reasonable assurance about whether or not the property is at risk from lead dust.

The maintenance and the environmental conditions of the property are the responsibility of the property's management, principals, or owners. If the property, program, or any of its tenants receive financial federal assistance, the results of this evaluation must be provided by the designated party (client) to the owner of the referenced property and the occupants within 15 calendar days of the date when the designated party receives this report or makes the presumption that lead-based paint hazards exist, per the Department of Housing and Urban Development 24 CFR Part 35.125.

All dust wipes tested are not considered actionable for lead dust. The property may still contain lead painted components and lead dust re-accumulation is possible.

Lead Dust Hazard Standards

Floors (Bare and Carpeted)..... < 10 ug/ft²
Window Sill..... < 100 ug/ft²

Respectfully submitted,

Yerani Heredia

The Reporting Limit (RL) is 5.00 ug Total Pb. Dust wipe area and results are calculated based on area measurements determined by the client. All internal quality control requirements associated with this batch were met, unless otherwise noted.

The condition of the samples analyzed was acceptable upon receipt per laboratory protocol unless otherwise noted on this report. Results represent the analysis of samples submitted by the client. Sample location, description, area, etc., was provided by the client. Results reported above in ug/ft² are calculated based on area supplied by the client. If the report does not contain the result for a field blank, it is due to the fact that the client did not include a field blank with their samples. These sample results do not reflect blank correction. This report shall not be reproduced except in full, without the written consent of Environmental Hazards Services, L.L.C.

ELLAP Accreditation through AIHA LAP, LLC (100420), NY ELAP #11714.

Legend	ug = microgram mL = milliliter	ug/ft ² = micrograms per square foot ft ² = square foot	Pb = lead
